THE LATEST

VICTORY OF MEDICAL SCIENCE. The only existing remedy for every spe-cies of Acute or Chronic Disease of the Organs of Respiration, and an absolute

> SPECIFIC FOR CONSUMPTION THIS all-powerful vegetable prepara-tion expels from the lungs and air pas-sages, the mucus and muco-pus produced by pulmonary inflammation, heals the irritated membranes, and renovates every organ which utilizes the breath of Life. It contains no stupefying poison, and is in all respects a healthful medi-cine. The rapidity and certainty with which it ANNIHILATES A COUGH

is astonishing. Its effects go deeper than the mere symptoms of pulmonary disease and discharges the eause from the system. Free and painless expectoration is the mode by which it relieves the lungs, chest and throat from the burdens which oppress them; thus arresting Consumption and Bronchitis in the germ before they reach the more dangerous stages. The emaciated sufferer BATTLING FOR LIFE with the most terrible scourge of our ell-mate will find Fritsch's Prussian Cough Syrup a potent ally, and will assuredly win the fight by adhering strictly to this great medicine. The

CASES NOW ON RECORD in which it has been administered with entire success as a remedy for every va-riety of malady which affects the Be-spiratory Functions, amount to more than

FIVE THOUSAND at the present date, and yet the prepara-tion is only in the infancy of its useful-ness. The great defect of all Cough Remedies hitherto introduced is that they are simply expulsory. Hence they are useless; for unless the causes of the acrid secretions which are coughed up are removed, and the ruptured, inflamed or maturated surfaces healed and re-stored to their natural tone, a cure is impossible. Fritsch's Prussian Cough Syrup accomplishes these objects. The mucus and muco-pus which are the con-sequence of Lung Disease, are thrown off by it, while at the same time it soothes and invigorates the weakened tissues.
